

Physics, Materials, and Applied Mathematics Research (PM&AM Research) concentrates on basic, focused, and applied research to support technologies, which are critical in maintaining an advantage in National Defense/Security. We specialize in solving complex cross-disciplinary problems; developing new technologies and product lines; and supporting T&E/IV&V efforts. Our blend of computational, analytical, and experimental expertise allows us to apply these specialties in each project we pursue.

BETWEEN SECURITY CHALLENGED AND SECURITY STRENGTHENED,  
THERE IS ONE IMPORTANT WORD: HOW

AND IT IS THE HOW THAT MAKES ALL THE DIFFERENCE

lockheedmartin.com/how

### SERVING THOSE WHO SERVE

Every day U.S. service men and women place themselves in harm's way to accomplish their mission – protecting our nation and ensuring its security. Our mission at EADS North America is to provide the equipment and support necessary for them to do their job and come home safely to their families. From helicopters and patrol aircraft to reliable emergency communications, EADS North America proudly serves those who serve.
